Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim(s) 22 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. A computer program product does not fall within at least one of the four categories of patent eligible subject matter recited in 35 U.S.C. 101 (process, machine, manufacture, or composition of matter).

The claimed invention is directed to a judicial exception to 35 U.S.C. 101 (i.e., an abstract idea, natural phenomenon, or law of nature) and is not directed to a practical application of such judicial exception (e.g., because the claim does not require any physical transformation and the invention as claimed does not produce a useful, concrete, and tangible result).

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent

Art Unit: 2614

granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. **Claim(s) 1-5, 8-12 and 15-21** are rejected under 35 U.S.C. 102(e) as being anticipated by Brisebois et al. (US 6,310,944 B1).

Regarding **claim(s) 1**, Brisebois discloses a method of providing communications services (FIG. 1 and column 1, lines 38-41), comprising:

receiving caller identification information identifying a call from an originating party to a receiving party (column 6, lines 56-65);

accessing a database of pre-created text messages, the database storing a pre-created text message having a common association between the receiving party and the originating party (column 7, lines 7-20); and

communicating the pre-created text message to an Internet Protocol address associated with the originating party (column 5, lines 4-12).

Regarding **claim(s) 2 and 10**, Brisebois discloses a method, wherein communicating the pre-created text message comprises communicating the pre-created text message via an Internet Protocol communications network (column 7, lines 31-34).

Regarding **claim(s) 3 and 11**, Brisebois discloses a method, wherein communicating the pre-created text message comprising wirelessly communicating the

Art Unit: 2614

pre-created text message via a wireless communications network (column 7, lines 31-34).

Regarding **claim(s) 4**, Brisebois discloses a method, wherein communicating the pre-created text message comprises wirelessly communicating the pre-created text message via a pager communications network (column 7, lines 31-34).

Regarding **claim(s) 5 and 12**, Brisebois discloses a method, further comprising receiving a telephone call intended to terminate at the receiving party (column 7, lines 26-29).

Regarding **claim(s) 8 and 15**, Brisebois discloses a method, further comprising communicating the pre-created text message to another destination (column 7, lines 31-34).

Regarding **claim(s) 9**, Brisebois discloses a method of providing communications services (FIG. 1 and column 1, lines 38-41), comprising:

receiving caller identification information identifying a call from an originating party to a receiving party (column 6, lines 56-65);

accessing a database of pre-created text messages, the database storing multiple pre-created text messages associated with the receiving party (column 7, lines 7-20);

select one of the pre-created text messages; and
communicating the pre-created text message to the originating party (column 7, lines 7-20).

Regarding **claim(s) 16**, Brisebois discloses a method according, wherein the step of selecting one of the pre-coated text messages comprises selecting one pre-created text message having a common association between the originating party and an additional condition, the additional condition specified by the receiving party (column 6, lines 11-22).

Regarding **claim(s) 17**, Brisebois discloses a method, wherein the additional condition comprises a time of a day that the call is received (column 5, lines 13-20).

Regarding **claim(s) 18**, Brisebois discloses a method, wherein the additional condition comprises entries in an electronic calendar (column 5, lines 13-20).

Regarding **claim(s) 19**, Brisebois discloses a method, wherein the additional condition comprises presence information (column 5, lines 21-31).

Regarding **claim(s) 20**, Brisebois discloses a method, wherein the additional condition is based on a search of another database (column 6, lines 11-22).

Regarding **claim(s) 21**, Brisebois discloses a system (FIG. 1, and column 1, lines 38-41), comprising:

a Communications Module stored in a memory device, and a processor communicating with the memory device (FIG. 1);

the Communications Module receiving caller identification information identifying a call from an originating party that is intended for a receiving party (column 6, lines 56-65), the Communications Module accessing a database of pre-created text messages, the database storing a pre-created text message having a common association between the receiving party and the originating party, the Communications Module then initiating a communication of the pre-created text message to the originating party (column 7, lines 7-20).

Response to Arguments

4. Applicant's arguments with respect to **claim(s) 1-5, 8-12 and 15-22** have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gerald Gauthier whose telephone number is (571) 272-7539. The examiner can normally be reached on 8:00 AM to 4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Fan Tsang can be reached on (571) 272-7547. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
